List of Add-on/ Certificate Course offered During 2021-22

Sr.No.	Name of Program / Certificate Program Offered	Course Code
1	Certificate Course on " R Language"	CSE212201
2	Certificate Course on " Introduction to NS2 Simulator"	CSE212202
3	Certificate Course on "IoT"	IT212201
4	Certificate Course on "Machine Learning"	IT212202
5	Certificate Course on "Skill Development on -No SQL"	IT212203
6	Certification course on "Data Science and Data Analytics"	EC212201
7	Certification course on "Hands on TMS320C5416 Processor using Code Composer Studio"	EC212202
8	Certification course on "5G Core Architecture"	EC212203
9	Certificate Course on "Importance of Automation"	ME212201
10	Certificate Course on "Advancements in Automobile Engineering"	ME212202
11	Add-on Course on "Trends in Industry 4.0"	ME212203
12	Certificate Course on "Watershed Management"	CV212201
13	Certificate Course on "Transportation Engineering"	CV212202
14	Certificate Course on "Effect of Air Pollution on Human, Plant and Animal"	CV212203

Department of Computer Science and Engineering

Session 2021-2022(ODD SEM)

NOTICE

Date:- 01/10/2021

All the Students of III Semester are hereby informed that our Department is organizing 30 days free Certificate courses on "R LANGUAGE". Interested students can enroll their name to Mr. D. V. Jamthe on or before 05/10/2021. Certificate will be issued to the students after successful completion of the course. The detail contents of the course and other information is attached herewith.

Sr. No.	Name Of Course	Date Of Commencement	Venue
1.	R LANGUAGE	07/10/2021 THURSDAY	Computer Center, I Floor

Co-ordinator

Mr. D. V. Jamthe

HOD, CSE

Mr. K. N. Hande
Head of Department
Department of Computer Sc. & Engg.
Priyadarshini Bhagwati College of Engg.
Umred Road, Nagpur - 24.

Department of Computer Science and Engineering

Academic session 2021-22(Odd Sem)

Free Certification Course

Course Name:- R LANGUAGE

Sr. No.	Contents	No. Of Hrs.
1.	Introduction to R and RStudio : Introduction to R programming and its application	1
2.	Installing R and RStudio	1
3.	Basic Operation: arithmetic, variable, data types	1
4.	Managing R project and working Directories	1
5.	Data Structure in R : Vectors: creation, indexing, manipulation	1
6.	Matrices and arrays	1
7.	Lists and data frames	1
8.	Factors and character vectors	1
9.	Data Input and Output : Reading and Writing data from/to various file format(CSV,Excel,Text, etc)	1
10.	Data preprocessing : cleaning, transforming and structuring data	1
11.	Control Structures and Function : Conditional statement if, else, Switch	1
12.	Loops : for, while, repeat	1
13.	Writing function in R	1
14.	Scope and Environment	1

15.	Data Visualization with ggplot2 : Introduction to data visualization	1
16.	Basic plotting using Base R Graphics	1
17.	Introduction to ggplot2 grammar	1
18.	Creating Various types of Plots : scatter plot, bar plots, line plots, etc.	1
19.	Data manipulation with dplyr and tidyr : Introduction to data manipulation	1
20.	Using dplyr for filtering , arranging	1
21.	summarizing and grouping data	1
22.	Reshaping data with tidyr:gathering, spreading and pivoting	1
23.	Statistical Analysis in R : Descriptive statistic and summary function	1
24.	Hypothesis testing and p-values	1
25.	Linear regression and correlation analysis	1
26.	Basic principle of statistical inference	1
27.	Advanced Topic : Writing efficient code : vectorization and optimization	1
28.	Working with dates and times	1
29.	Handling missing data	1
30.	Introduction to data modelling and machine learning in R	1

Free Certification Course Syllabus

Course Name:- Introduction to NS2 Simulator

Sr. No.	Contents	No. Of Hrs.
1.	Understanding of basic Linux commands for file handling	1
2.	Understanding of basic Linux commands for file handling	1
3.	Understanding of Shell programming in Linux	1
4.	Understanding of Shell programming in Linux	1
5.	Execution of otcl/tcl script	1
6.	Execution of otcl/tcl script	1
7.	Understating the working of nam	1
8.	Understating the working of nam	1
9.	Understating the working of xgraph	1
10.	Understating the working of xgraph	1
11.	Installation and configuration ns-2 network simulator	1
12.	Installation and configuration ns-2 network simulator	1
13.	Visualize, packet flow, queue build and packet drop using ns2 simulation environment	1
14.	Visualize, packet flow, queue build and packet drop using ns2 simulation environment	1
15.	Investigate the impact of contention window size on the performance of the IEEE 802.11 MAC protocol	1
16.	Investigate the impact of contention window size on the performance of the IEEE 802.11 MAC protocol	1
17.	Execution of carrier sensing mechanism in IEEE 802.11 and compare physical carrier sense and virtual carrier sense mechanisms	1
18.	Execution of carrier sensing mechanism in IEEE 802.11 and compare physical carrier sense and virtual carrier sense mechanisms	1

19.	Simulation of impact of MAC overhead and multiple hops on achievable data throughput in a wireless network	1
20.	Simulation of impact of MAC overhead and multiple hops on achievable data throughput in a wireless network	1
21.	Execution of some RF propagation models and their implementation in ns2	1
22.	Execution of some RF propagation models and their implementation in ns2	1
23.	Simulate the performance of DSDV routing protocol in adhoc network	1
24.	Simulate the performance of DSDV routing protocol in adhoc network	1
25.	Creating the scenario for simple LAN in ns2	1
26.	Creating the scenario for simple LAN in ns2	1
27.	Creating the scenario for Wireless sensor network in ns2	1
28.	Creating the scenario for Wireless sensor network in ns2	1
29.	Creating the scenario for Mobile adhoc network in ns2	1
30.	Creating the scenario for Mobile adhoc network in ns2	1

HOD

PRIYADARSHINI BHAGWATI COLLEGE OF ENGINEERING, NAGPUR

Department of Information Technology

Session 2021-22

Free Online Certification Course

Course Name -Skill Development on IoT

Syllabus

1. Introduction to IOT
 - Understanding IoT fundamentals
 - IOT Architecture and protocols
 - Various Platforms for IoT
 - Real time Examples of IoT
 - Overview of IoT components and IoT Communication Technologies
 - Challenges in IOT
2. Arduino Simulation Environment
 - Arduino Uno Architecture
 - Setup the IDE, Writing Arduino Software
 - Arduino Libraries
 - Basics of Embedded C programming for Arduino
 - Interfacing LED, push button and buzzer with Arduino
 - Interfacing Arduino with LCD
3. Sensor & Actuators with Arduino
 - Overview of Sensors working
 - Analog and Digital Sensors
 - Interfacing of Temperature, Humidity, Motion, Light and Gas Sensor with Arduino
 - Interfacing of Actuators with Arduino.
 - Interfacing of Relay Switch and Servo Motor with Arduino
4. Basic Networking with ESP8266 WiFi module
 - Basics of Wireless Networking

Introduction to ESP8266 Wi-Fi Module

Various Wi-Fi library

5. IoT Protocols

M2M vs. IOT

Communication Protocols

6. Cloud Platforms for IOT

Virtualization concepts and Cloud Architecture

Cloud computing, benefits

Cloud services -- SaaS, PaaS, IaaS

NOTICE

Date -09/12/2021

All the Students are hereby informed that Department of Information Technology is organizing free certification Online Course on Machine Learning from dated 13/12/2021. Interested Students can enroll to the course, certificate will be issued after successful completion of the course.

The Details of the course and other information is attached herewith

Sr. No	Name of the Course	Date of Commencement	Venue	Seats
1	Machine Learning	13/12/2021	Online	50

Prof. M.S. Chaudhari

HOD
Head
Information Technology Department
Priyadarshini Bhagwati College of Engineering
Harpur Nagar, Nagpur-24

Machine Learning

- Introduction
- How Machine Learning Works
- Installation
- Configuring Machine Learning With Eclipse
- Machine Learning RC Vs Machine Learning
- Programming your tests in WebDriver
- Debugging WebDriver test cases
- Troubleshooting
- Handling HTTPS and Security Pop-ups
- Running tests in different browsers
- Handle Alerts / Pop-ups and Multiple Windows using WebDriver

Automation Test Design Considerations

- Introducing Test Design
- What to Test
- Verifying Results
- Choosing a Location Strategy
- UI Mapping
- Handling Errors

Handling Test Data

- Reading test data from excel file
- Writing data to excel file
- Reading test configuration data from text file
- Test logging
- Machine Learning Grid Overview

Building Automation Frameworks Using Machine Learning

- What is a Framework
- Types of Frameworks
- Modular framework
- Data Driven framework
- Keyword driven framework
- Hybrid framework
- Use of Framework
- Develop a framework using TestNG/WebDriver

Umred Road, Nagpur.

PRIYADARSHINI BHAGWATI COLLEGE OF ENGINEERING, NAGPUR

Department of Information Technology

Session 2021-22

Free Certification Course

Course Name -Skill Development on NoSQL

Syllabus

Introduction to NoSQL (2 hours)

Overview of traditional SQL databases and their limitations

Introduction to NoSQL databases and their advantages

Types of NoSQL databases: document, key-value, columnar, and graph databases

Document Databases (6 hours)

Understanding document-oriented databases and their structure

Document data model and schema-less design

CRUD operations (Create, Read, Update, Delete) in document databases

Querying and indexing documents

Examples of popular document databases: MongoDB, Couchbase

Key-Value Databases (4 hours)

Introduction to key-value databases and their characteristics

Key-value data model and basic operations

Working with key-value pairs and storing unstructured data

Consistency, availability, and partition tolerance (CAP theorem)

Examples of popular key-value databases: Redis, Amazon DynamoDB

Columnar Databases (4 hours)

Overview of columnar databases and their use cases

Columnar data model and column-oriented storage

Querying and aggregating data in columnar databases

Compression techniques for efficient storage and retrieval

Examples of popular columnar databases: Apache Cassandra, Apache HBase

Graph Databases (6 hours)

Introduction to graph databases and their unique features
Graph data model: nodes, edges, and properties
Querying and traversing graphs using graph query languages (e.g., Cypher)
Indexing and optimizing graph queries
Examples of popular graph databases: Neo4j, Amazon Neptune

Scaling and Replication (4 hours)

Scaling strategies for NoSQL databases: horizontal and vertical scaling
Sharding and partitioning data across multiple nodes
Replication and data consistency in distributed systems
High availability and fault tolerance considerations

NoSQL Database Design Patterns (4 hours)

Design considerations for NoSQL databases
Data modeling and schema design approaches
Handling relationships and denormalization
Case studies and real-world examples of NoSQL database design

Department of Electronic & Communication Engineering

Academic session 2021-22

NOTICE

Date: 01/02/2022

All the students of Electronics and Communication Engineering Department are hereby informed that the department is going to organize **free Certification course on "Data Science and Data Analytics"**. The interested students register their name to the undersigned faculty.

The detail of the course:

Name of Course : Data Science and Data Analytics
Course Code : EC212201
Date of Commencement : 10/02/2022 to 25/03/2022
Total Hrs : 30
Seats : 30

Dr. (Ms.) D. M. Kate
HOD, EC Dept. PBCOE
Head
Electronics & Communication
Priyadarshini Bhagwati College of Engg.
Umred Road, Nagpur.

Copy to:

Principal Sir for kind information,
Dean Academics,
For circulation to faculty members,
For display on notice board of Deptt.

INTERNAL QUALITY ASSURANCE CELL INITIATES

CERTIFICATE COURSE ON "Data Analytics & Data Science"

USING PYTHON & MS-EXCEL

FOR WHOM?

- All Semester Students
- Who want to learn and master in Data Analytics & Data Science.
- Who want to make career as Data Analysts, Data Scientists, Data Engineer, Data Architect, Data Administrator, Business Analysts etc.
- Who has learning curve towards Artificial Intelligence and Machine Learning.

CERTIFICATE

Certificates will be given to all participants with minimum 80 % attendance and passed in terminal examination

**10TH FEBRUARY TO
15 MARCH, 2022**

**3.30 PM TO 4.30 PM
EVERYDAY**

EXPERT

Dr. Pramod Bokde

Ph.D., M.Tech., B.E.
Assistant Professor, EC

ORGANIZERS

DR. N. K. CHOUDHARI

Principal, PBCOE

Session 2021-22

A Certificate Course on
"DATA SCIENCE AND DATA ANALYTICS"
CONTENTS

Sr. No.	Contents	No. of Hours
1	Advanced Python Review : A python development environment, A review of data type, A new class structure, Python Best Practices	2 Hours
2	Ipython Notebook : Functionality provided-Why use them?, CRUD for notebooks, Interface & Shortcuts	1 Hours
3	Numpy : Datatypes, universal functions, Indexing, summary methods, Sorting, Computation and broadcasting	3 Hour
4	SciPy : Overview of SciPy, Statistical Functions	2Hours
5	Pandas Series : Pandas series structure, Series CRUD, Indexing and Access Techniques, Data methods, Dataframe construction, Dataframe change and reorganization, grouping, pivoting, reshaping	4 Hours
6	Pandas DataFrame - Data Manipulation : statistics, data method, Missing data tools	2 Hours
7	Understanding Data Visualization : Visualization is storytelling, Types of charts, common mistakes, Best practices, reproducibility	3 Hours
8	Matplotlib for data visualization : steps for creating data visualization, Jupyter notebook and matplotlib, matplotlib styles, small multiples, Pandas series plotting, Pandas dataframe plotting	4 Hours
9	Data Cleaning : Importing data, CSV,xml, html, xls, Problems of PDF data sources, Data Transformations, Missing data, time series problems	3 Hours
10	Statistics for understanding Data: Exploratory Data Analysis : PMF, CDF, Correlation, Least Squares, A/B testing, Hypothesis Test, Statistical Significance, P-Values and Confidence intervals	3 Hours
11	Introduction to statistical techniques : Regression & prediction, Classification, K-nearest neighbour	3 Hours
	Total	30 Hours

Department of Electronics & Communication Engineering
Academic session 2021-22

Report of Certification Course

1. Event Title : Certification Course on **"Data Science and Data Analytics"**.
2. Course Code : **EC212201**
3. Event Date : From 10/02/2022 onwards
4. Event conduction duration : 35 Hours
5. Event venue : Online
6. Sem/Branch : EC/CSE/IT (All Semester)
7. Event resource person : Dr. Pramod R. Bokde
8. Name of Event Coordinator : Dr. Pramod R. Bokde

9. Objective : The objective of a certification course on "Data Science and Data Analytics" is to provide participants with a comprehensive understanding of the principles, techniques and tools used in data science and data analytics. This course aims to equip participants with the knowledge and skills to extract insights from data, make data-driven decisions, and solve complex problems, using analytical approaches.

10. Outcome : By completing a certificate course on "Data Science and Data Analytics", participants will acquire the knowledge and skills necessary to extract insights and value from data. They will be prepared to work as data scientists, data analysts or business analysts, applying data-driven approaches to solve complex problems and make informed decisions. Additionally, participants will have a strong foundation to further explore advanced topics in data science, such as deep learning, natural language processing, or advanced statistical modeling.

Department of B. Tech Mechanical Engineering
Academic session 2021-2022

NOTICE

Date: 09/12/2021

All the students of B. Tech III year are hereby inform that our department is organising a one month free certification course on "Importance of Automation" .Dr. Akshay D. Anjekar will be coordinating the course conduction. Participation certificates will be provided to all the students who registered for the same. The detailed content of the course and schedule is attached herewith the notice.

Sr.No	Name of Course	Date of Commencement	Venue
1.	"Importance of Automation"	13/12/2021	Automation in Production lab

Prof. S.M. Pimpalgaonkar

HOD

Mechanical Department

Department of Mechanical Engineering

Academic session 2021-2022

Syllabus

Introduction

Mechanical is the core branches of engineering finding its application in every aspect of common as well as technical life. To make aware about some important yet simple technicalities as well as applications of the basics of this branch, we have designed a certificate course on "**Importance of Automation.**" This module is gist of application based practical of mechanical engineer including use of software in for the same. Students of III year B.Tech will undergone this course followed by test and evaluation and summative assessment grade certificate to the students who clear the assessment.

Objective of the Course:

1. To make the student aware about the practical based application of engineering mechanics.
2. To make the student aware about working of machines for manufacturing application.
3. To make the student aware about use of software for drafting and designing.
4. To make the student aware about automated machining like CNC.

Course Outcomes:

After completion of this Course Student will be able to:

1. Describe the concept of Engineering mechanics & its application.
2. Explain the concept of friction and its application.
3. Explain the concept of lami's theorem and free body diagram.
4. Perform the basic machining operation on lathe machine.
5. Draw basic geometric shapes using FREECAD Software.
6. Write a part program using G and M code in CNC part programming.
7. Perform simple miscellaneous operations on CNC lathe machine.

Course Name: "Importance of Automation"

Sr. No	Modules	No. of Hours
1.	Automation – Performance and simulation with CNC milling software. Progammig with automatically programmed tools.	05
2.	Automated material handling & storage - Conveyor systems: Automated Guided Vehicle Systems - Types: - Driverless trains, AGVS pallet trucks, AGVS unit-load carriers. Vehicle guidance & Routing, Traffic control & safety, System management, Analysis of AGVS systems, AGVS applications. Automated Storage & Retrieval System.	05
3.	Automated inspection & Group technology: Automated inspection methods -100% automated inspection, off-line & on -line inspection, distributed inspection & final inspection; coordinate.	05
4.	Automation - Definition, types, reasons, strategies for automating, arguments for and against automation. Automated Flow 'Lines - Methods of work part transport, Buffer storage	05
5.	Machine control unit and other components, part programming and tape formats, method of part programming. Introduction of manual part programming (NC words): APT programming in details, Directed numerical control. Computer numerical control. Adaptive control. Applications of NC.	05
6.	Numerical Control Production Systems-Basic concepts, coordinate system and machine motion. Types of NC systems -Point to point, straight cut and continuous path.	05
	Total	30

Academic session 2021-2022

NOTICE

Date: 17/11/2021

All the students of Final Year Mechanical Engineering are hereby inform that our department is organising a one month free add on course on “Trends in Industry 4.0” with the objective to make our students aware about the current trends going on in Industry 4.0 perspective in manufacturing sectors. Prof. S.P.Gurway will be coordinating the course conduction. Participation certificates will be provided to all the students who registered for the same. The detailed content of the course and schedule is attached herewith the notice.

Sr.No	Name of Course	Date of Commencement	Venue
1.	“Trends in Industry 4.0”	22/11/2021	Mechanical Dept. Classrooms & Automation Lab

Prof.S.M.Pimpalgaonkar
Head,ME Dept.

Department of Mechanical Engineering
Academic session 2021-2022

Syllabus

Introduction

The term Industry 4.0 refers to the **digitalization of production processes**, more specifically: the development of networked systems and self-control technologies. Until now, employees have been responsible for evaluating information provided by systems. In the future, however, machines will be equipped with special sensors and will be able to control communication and optimization processes themselves. In this course we are trying to cover the basic fundamentals which are recently trending in Industry 4.0 scenario for smart technologies and manufacturing.

Objective of the Course:

1. To make the student aware about the basics of Industry 4.0.
2. To make the student aware about industrial automation and robotics.
3. To make the student aware about the fundamentals of additive manufacturing.
4. To make the student aware about IoT, sensor technologies, energy efficient robotics highly implemented under the umbrella of Industry 4.0.
5. To give exposure to students about the opportunities for Mechanical engineers in industry 4.0.

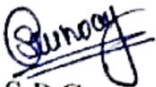

Course Outcomes:

After completion of this Course Student will be able to:

1. Know The use of **AI-supported systems** in industry 4.0
2. Explain the use of sensors to collect critical data and parameters such as temperature, position, pressure, force, humidity, distance or air quality.
3. Perform simple miscellaneous operations on CNC machine.
4. Use of robots enhances productivity, safety and quality, leading to business continuity and increased efficiency of operations.

Course Name: "Trends in Industry 4.0"

Sr. No	Modules	No. of Hours
1.	Introduction to Industry 4.0 and related concepts: Definition, technologies, Benefits. Case based Application of IIOT, ERP, and Supply chain Management, Smart Manufacturing.	05
2.	Concept of smart manufacturing: Introduction to smart manufacturing, goal of Smart Manufacturing, use of automation tools, Automation Concept like manufacturing through CNC machines, part programming etc.	05
3.	Additive Manufacturing: introduction to additive manufacturing technology, concept of AM technologies like binder jetting, material extrusion, powder bed fusion, sheet lamination and vat polymerization. Concept of 3D printing.	05
4.	Energy Management through IoT.concept of IoT based intelligent energy monitoring system, Application of IoT tools like Advance analytics, real time energy monitoring, predictive analysis in efficient energy management in company, Benefits of IoT energy management system.	05
5.	IoT based inventory control: What is IoT and inventory management? Use of IoT devices like sensors, barcodes and RFID in inventory management. Application of IoT in smart warehouses. Case based example of real time application of IoT in warehouse management in Amazon & Walmart.	05
6.	Other advanced manufacturing techniques emerges during industry 4.0 era.	05
	Total	30

1. Title of Course : Add-on course on "Trends in Industry 4.0"
2. Course Code : ME212203
3. Course Date : 22/11/2021-27/11/2021
4. Course duration : 30Hrs
5. Event venue : Automation Lab & ME Dept. Classrooms
6. Name of Event Coordinator : Asst.Prof. S.P.Gurway
7. Number of students : 62
8. Objective : To provide knowledge to students related to industrial insights like Advance manufacturing like CNC, additive manufacturing, application of Industry 4.0 techniques & its implementation in industrial engineering to improve the employability skills.
9. Outcome : Students will be able to learn the advance tools of Industry 4.0 & implementation automated manufacturing like CNC machining. Similarly students will be able to know the practical insights of Industry 4.0 and IoT Trends. Real life examples on industrial process improvements through the use of IoT will give real insight to students.

Ref. Civil / Even Sem /2021-22

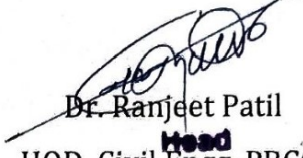

Date: 16/04/2022

NOTICE

All the students are hereby informed that department is going to organised Add on/ certificate programme from 26/04/2022 on "**Watershed Management**". The duration of programme is 30 Hours and the programme will be coordinate by Prof. A. N. Burile, Asst. Professor Civil Engineering Department. Students should enroll their names upto 22/04/2022

Venue - Tutorial Room, Second Floor, Civil Engineering Department

Time - 09 am to 10 am

Dr. Ranjeet Patil

Head
HOD, Civil Engg. PBGOE

Session 2021-2022

Value added course

WATERSHED MANAGEMENT

Modules	Particular	Hrs.
Module-I Introduction and basic concepts		
01	Concept of watershed, Introduction to watershed management, different stack holders and their relative importance, Watershed management policies and decision making	08
Module-II : Watershed Modelling		
02	Standard modelling approaches and classification, system concept for watershed modelling, overall description of different hydrologic processes, modelling of rainfall runoff process, subsurface flows and groundwater flow.	08
Module-III: Soil Erosion Modelling & Management of Water Quality		
03	Soil Erosion, Estimation of soil erosion. Water quality and pollution, types and sources of pollution, water quality modelling, environmental guidelines for water quality.	07
Module-IV: Storm Water and Flood Management & Drought Management		
04	Storm water management, design of drainage system, flood routing through channels and reservoir, flood control and reservoir operation, case studies of flood damage. Drought assessment and classification, drought analysis techniques, drought mitigation planning.	07
Total		30

Assistant Professor
CIVIL Engg. Deptt.
Priyadarshini Bhagwati College of Engg
Umred Road, Nagpur.

Department of Civil Engineering
Academic session 2021-2022 (Even semester)
Certificate Course Date wise Schedule
Subject – WATERSHED MANAGEMENT

Sr.No	Contents	Date
Module-I Introduction and basic concepts		
1	Concept of watershed,	26/04/2022
2	Concept of watershed,	27/04/2022
3	Introduction to watershed management,	28/04/2022
4	Introduction to watershed management,	29/04/2022
5	Different stack holders and their relative importance,	02/05/2022
6	Different stack holders and their relative importance,	03/05/2022
7	Watershed management policies and decision making	04/05/2022
8	Watershed management policies and decision making	05/05/2022
Module-II : Watershed Modelling		
9	Standard modelling approaches and classification	06/05/2022
10	Standard modelling approaches and classification	07/05/2022
11	System concept for watershed modelling,	09/05/2022
12	System concept for watershed modelling,	10/05/2022
13	Overall description of different hydrologic processes,	11/05/2022
14	Overall description of different hydrologic processes,	12/05/2022
15	Modelling of rainfall runoff process	13/05/2022
16	subsurface flows and groundwater flow.	14/05/2022
Module-III: Soil Erosion Modelling & Management of Water Quality		
17	Soil Erosion,	16/05/2022
18	Soil Erosion,	17/05/2022
19	Estimation of soil erosion.	18/05/2022
20	Water quality and pollution	19/05/2022
21	Types and sources of pollution,	20/05/2022
22	Water quality modelling,	21/05/2022
23	Environmental guidelines for water quality.	23/05/2022
Module-IV: Storm Water and Flood Management & Drought Management		
24	Storm water management,	24/05/2022
25	Design of drainage system,	25/05/2022
26	Flood routing through channels and reservoir	26/05/2022
27	Flood control and reservoir operation, case studies of flood damage	27/05/2022
28	Drought assessment and classification,	28/05/2022
29	Drought analysis techniques,	29/05/2022
30	Drought mitigation planning.	30/05/2022

Academic session 2021-22

Report of Certificate Course on WATERSHED MANAGEMENT

1. Event Title : **Certificate Course on WATERSHED MANAGEMENT**
2. Event Date : 26 April 2022 To 30 May 2022
3. Event conduction duration : 9.00 a.m to 10 a.m
4. Event venue : Class Room (C-11) Department of Civil Engineering.
5. Sem/Branch : V & VII Sem B. E. CV (51 students)
6. Name of Event Coordinator : Prof Ajay N. Burile
7. Objective : To make aware students about importance of Watershed Management
8. Outcome : To understands control pollution of the water and other natural resources in the watershed by identifying the different kinds of pollution present in the watershed and how those pollutants are transported, and recommending ways to reduce or eliminate those pollution sources.

Department of Civil Engineering
Academic session 2021-2022 (Odd semester)
Value Added Course
On
Transportation Engineering

Sr. No.	Content	No. of Hours
Module-I Introduction & Highway development		
1	Importance of transportation, different modes of transportation	2
2	Development of road construction, Highway projects, Highway planning in India, scope of highway engineering	3
Module-II Highway project preparation & geometric design		
3	Soil & subgrade for construction of road, Soil Stabilisation, Materials used in highway construction.	3
4	Highway alignment, highway surveys, highway cross section element, sight distances, design of horizontal & vertical alignment	4
Module-III Pavement management & road side development		
5	Pavement maintenance & management systems, Drainage of slopes & erosion control, Maintenance problems on hill roads	3
6	Land use for transportation, Environmental & social issues in Highway development, Road side development & Arboriculture	3
Module-IV Traffic engineering Introduction		
7	Definition, Importance of traffic engineering under Indian condition, Human factors governing road user behaviour, Need for traffic forecasting	3
8	Passenger car unit, Delay studies	1
Module-V Traffic management, Traffic aids, Education		
9	Traffic management, Importance and types of traffic signs, Pedestrian crossings, Traffic regulatory measures for on street parking	4
10	Accident situation in India, Accident studies, Traffic control aids, Legislation, Enforcement, Education & propaganda, Detrimental effects of traffic on the Environment, Promotion for public transport	4

Academic session 2021-2022

Certificate Course Content

Subject – EFFECT OF AIR POLLUTION ON HUMAN, PLANT AND ANIMALS

Sr. No	Contents	Hours
Module-I		
1	Introduction to Air pollution	1
2	Diffrent types of Air pollutants	1
3	Causes of Air Pollution	1
4	Sources of Air pollution	2
5	Effect of Air pollution on Human life	2
6	System affected by Air pollution	1
Module-II		
7	General study of plants	1
8	Pollutant and their effects on plant	1
9	Acid Rain and their effects	1
10	Global warming and their effects	2
11	Ozone Depletion and their effects	2
12	Soil Pollution and their effects	2
Module-III		
13	General study of Animal behaviour	1
14	Altered animal behaviour	2
15	Diseases and Mortality	3
16	Biodiversity loss	2
17	Change in species distribution	3
18	Eating Plants with Pollutants	2

DEPARTMENT OF CIVIL ENGINEERING
ACADEMIC SESSION- 2021-22

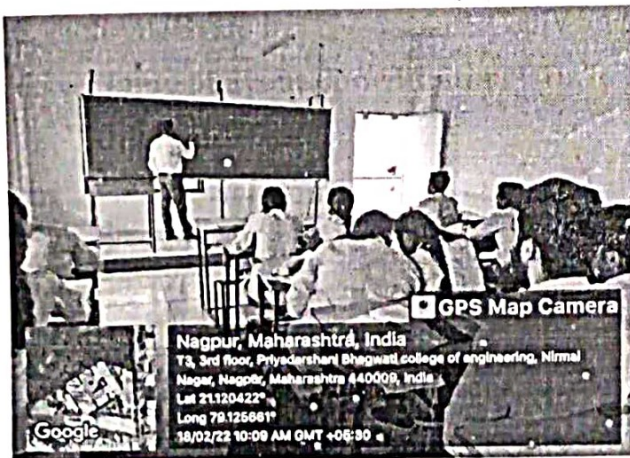

COURSE NAME: EFFECT OF AIR POLLUTION ON HUMAN, PLANT AND ANIMALS

REPORT OF CERTIFICATE COURSE

1. **Event Title** : Certificate Course on "Effect of Air Pollution on Human, Plant And Animals"
2. **Event Date** : 18th Feb. 2022 To 30th March 2022
3. **Event conduction duration** : 9.00 a.m to 10 a.m
4. **Event venue** : Class Room, Second Floor, Civil Engg., Department
5. **Sem/Branch** : IV Sem/ IInd Year Civil Engineering (38 students)
6. **Name of Event Coordinator** : Dr. R. N. Patil
7. **Outcome** :

- 1: Provides the knowledge on classification of elements and fundamentals of environmental chemistry
- 2: Understand the knowledge on the sources, impacts of air pollution and controlling methods
- 3: Familiarise with different sources and sinks of common air pollutants
- 4: Able to do sampling and analysis of air pollutant
- 5: Develop an understanding of working of air pollution control devices

8. **Photographs** :
